The Person Centered Planning Process

Person Centered Plan: A Complete and Positive Picture of the Learner

Who Is...?

Dreams & Fears

Preferences

Communication

Other MAPS (customized to individual)

Friends, Neighbors, Doctors, Nurses, Grocery store clerks, etc...

Child or Young Adult

Peers

Family

Case managers, Therapists, Adult service providers

School Personnel

A process that brings together individuals who know the learner in a unique and particular way to create a set of MAPS that provide meaningful information to use to make plans for the future by identifying & prioritizing needs and setting goals that expand possibilities and developing action plans that focus on overcoming fears or barriers and turning dreams into realities.

Educational and Life Planning

- Share common knowledge
- Identify goals important to all
- Discuss, clarify and prioritize goals
- Choose appropriate goals for IFSPs, IEPs, ISPs, IPEs
- Gain insight from others
- Identify new strategies to try, others to avoid
- Take a proactive approach
- Base planning and instructional strategies on preferences and interests
- Use collective wisdom to overcome challenges and expand possibilities
